Create a report about one aspect of your partner school as assigned by your teacher.
The presentation will take place in a video conference.

Write a report mimicking the style of a documentary.

This report can consist of various elements, including photos, interviews, and reports.

You can also contact individual groups or students again to request more details or to ask follow-up questions.

2

Together with your teacher, determine the order in which you want to present in the video conference.

3

Practice your report several times, determining who will say what.

If you want to interview one or more student(s) from the partner class or have them report "live," make sure to prepare with them beforehand.

4

Now conduct the video conference.

Let the partner class give you feedback on how you presented the places and how their perspective on them may have changed.
