

ACTIVITY 1: INVASIVE SPECIES

View the “[The Blue Mussel and Its Neighbors in the Continually Submerged Area of the Wadden Sea](#)” infographic from the Heinrich Böll Stiftung and the “[Invasive Species—the New Species in the Wadden Sea](#)” infographic from the Alfred-Wegener-Institut. Answer the guiding question:

- How have introduced species changed the Wadden Sea ecosystem?

Conduct Research

Choose one of the invasive species from one of the infographics and conduct research on the species. Trace the journey of the species from its native habitat to the *Wattenmeer*. Tell the story of the species, including its origin, journey, adaptation, and effect on the Wadden Sea ecosystem. Your story may be text, infographic, graphic novel, video, or slideshow with narration. Cite your sources of information
