THERE SHOULD BE A LAW!

Do you have concerns about your world?

The environment? Bullying in your community? Climate change?

Do laws providing protection already exist?

Do students in your partner class have the same concerns?

YOUR ASSIGNMENTS

1

As a class, brainstorm a list of concerns e.g., environment, bullying/cyberbullying, climate change etc. in your community. **Select and rank the top five concerns.**

2

In small groups, determine if laws or protections already exist for the **top five concerns.**

3

As a class, share the existing laws/ protections and then brainstorm what new laws/protections need to be created.

4

Meet with your partner class. Both classes **share their top five concerns** and discuss what they feel still needs to be done.

5

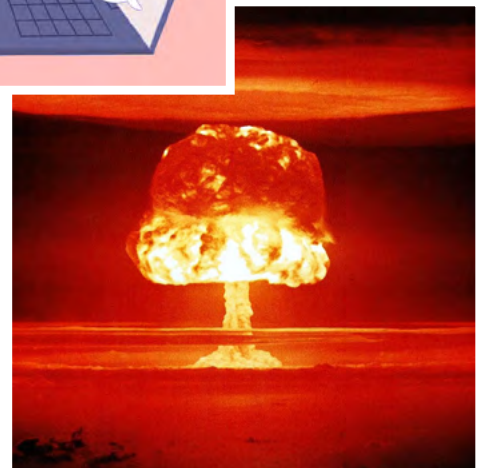

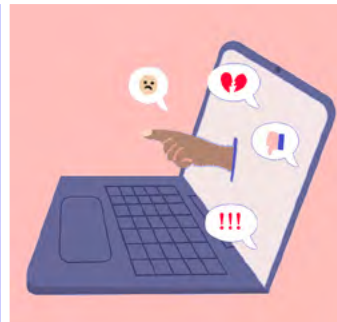

Are there similarities between the two lists? Surprises?
